

Xpert Technologies – experts in GPS / GSM Fleet Management Systems

Xpert Technologies specialises in helping entrepreneurs, business start-ups, resellers and operators of vehicle fleets to quickly establish a high quality, comprehensive, reliable and cost effective Fleet Management and Vehicle Tracking service to remotely manage fixed and mobile assets. In this way customers benefit from reduced operating costs, technical risks and complexity whilst increasing their profit margins.

Xpert Technologies is a systems integrator and has been supporting companies operating in challenging markets in West Africa for almost a decade. Multi-national corporations such as Coca Cola and 7UP and West African conglomerates such as Dangote Group, AG Leventis (Nig) Plc, Nigerian Breweries PLC, Flour Mills, Buildwell, etc., have all used our Fleet Management software to track between them, over 5,000 vehicles simultaneously, on servers located in the UK.

We also offer complementary services such as consultancy, integration and digitisation of digital maps; integration of customer's own tracking devices; development of complex Fleet Management reports and customised software solutions.

Our team comprises of personnel educated in leading IT universities with IT experience spanning over a decade in developing and implementing Fleet Management and Vehicle Tracking solutions for major corporations.

We have extensive experience in Microsoft products and technologies such as ASP.NET, Windows & Web Services, WCF, SQL Server 2008 R2, MVC 3/4, jQuery, JSON, Database Frameworks (Entity Framework), Software Engineering Design Patterns, Object Oriented Analysis & Design (UML), Project Management, Agile Methodologies (SCRUM), C#, Oracle and GIS products such as ArcGIS, ArcView and Google maps.

We are renowned for quality, reliability and peace of mind when it comes to providing a 24x7 service.

If your organisation is interested in technical advice and / or outsourcing its software development activities to a professional and reputable company with a track record in supporting multi-national corporations, then please do not hesitate to contact xPert Technologies for a competitive quotation.
